Career Objective:

Laravel developer with 4+ years of experience building secure and scalable web apps. Eager to join a dynamic team, grow my skills, and contribute meaningful solutions to drive organisational success.

Career Summary:

Laravel Backend Developer with 4+ years of experience in PHP & Laravel, building scalable SaaS, business directories, and marketplaces. Expert in OOP, MVC, RESTful APIs, and MySQL optimisation. Led backend for projects with advanced database, API-driven features, and payment systems. Skilled in clean code, front-end collaboration, and delivering top solutions for agencies. Ready to contribute to your team.

Special Qualification:

- 4+ years of experience in software development
- Manage backend tasks for high-volume web apps
- Skilled in MVC, REST APIs, SaaS, and payment systems
- Quick learner, dependable team player

- Strong at problem-solving and remote work

Employment History:

Total Year of Experience: 3.8 yrs

1. *Backend Developer (2.3 yrs)*
(15 Aug 2023 - Continuing)

Websolutionus
Area of Expertise:
JavaScript and Jquery (2.2 yrs), Laravel Framework (2.2 yrs), PHP (OOP) (2.2 yrs)

Duties/Responsibilities:
- Built and maintained web applications using Laravel, PHP, MySQL, and Bootstrap
- Designed RESTful APIs and handled API integrations
- Managed database architecture, query optimisation, and data security
- Worked closely with cross-functional teams to deliver project requirements
- Wrote clean, reusable code and followed best practices
- Debugged, tested, and optimised application performance
- Integrated custom payment systems and third-party services
- Provided technical support and participated in code reviews
- Kept up-to-date with emerging technologies and implemented improvements
- Collaborated in remote teams, communicating effectively in both English and Bangla

2. *Backend Developer (0.8 yr)*
(1 Nov 2022 - 15 Aug 2023)

Devintime
Area of Expertise:

Accomplishment:

Portfolio

1.		Personal Portfolio Website
		URL: https://az.is-a.dev/
		My portfolio site showcases selected software projects, Laravel packages, VS Code extensions, and YouTube content. It presents my experience, technical skills, and background for employers in a professional format.

2.		GitHub profile
		URL: https://github.com/abiruzzamanmolla
		Showcases my open-source Laravel, PHP, and JavaScript projects, including reusable packages, custom solutions, and VS Code extensions. Explore real code samples, project highlights, and active contributions reflecting my backend expertise and passion for building scalable web applications.

Projects

1.		EduBank LMS - Learning Management System
		Built the complete Laravel backend for EduBank, a modern LMS for instructors and organizations. Features include online course creation, product sales, subscriptions, forums, multi-language support, multiple payment gateways, and robust admin tools.

2.		TopCommerce - Laravel Multi-vendor eCommerce Script
		URL: https://demo.websolutionus.com/topcommerce/
		Built the full Laravel backend for TopCommerce, enabling multi-vendor management, product catalog, order processing, secure payments, vendor commissions, and scalable admin controls for robust online marketplace operations.

3.		AabcServ - Multivendor On-demand Service Marketplace
		URL: https://aabcserv.websolutionus.com/
		Developed the complete Laravel backend for AabcServ, powering vendor onboarding, real-time booking, payment integration, admin management, and scalable multi-vendor features for the handyman and local service marketplace

4.		WebOcean.io - Digital Asset Marketplace SaaS
		URL: https://webocean.io/
		Developed Laravel backend for WebOcean.io to manage and sell Figma/Webflow UI sections. Enabled secure payments, multi-gateway support, and robust admin features, powering a premium design marketplace for global clients.

5.		Wiklis.com - Multi-vendor Restaurant Supply Management System
		URL: https://wiklis.com/
		Built a scalablemarketplace for chefs and suppliers with multi-vendor onboarding, POS, CRM, stock, and multiple warehouse management. Integrated payment gateways and courier service APIs, enabling seamless procurement, automated deliveries, and real-time price comparison on one platform.

Others

1.		VS Code Publisher
		URL: https://marketplace.visualstudio.com/publishers/azmolla
		Explore my official extensions for VS Code, including productivity tools like Laragon Terminal Config, Prayer Timer Bangladesh, and Laravel Log Watcher. Designed to help developers code smarter and faster.

2.		Packagist Profile
		URL: https://packagist.org/users/AbiruzzamanMolla/packages/
		Browse my open-source Laravel and PHP packages on Packagist, featuring robust solutions for database transactions, cart management, Blade helpers, and multilingual money spelling. Used by developers worldwide.

Extra Curricular Activities:

- Maintain open-source Laravel PHP packages—LaravelCart, Blade Try-Catch, Laravel Mail Logger, and more
- Develop and publish VS Code extensions, including Laragon Terminal Config and Prayer Timer Bangladesh
- Create educational YouTube videos on programming and technology
- Actively read books in technology, history, science, and personal development

- Participate in coding communities and volunteer tech initiatives

Language Proficiency:

Language	Reading	Writing	Speaking
English	High	Medium	Medium
Bangla	High	High	High

Personal Details :

Father's Name	:	Md Arifuzzaman Molla
Mother's Name	:	Karima Akter
